

TELEPENDANT™

Radio Remote Control

LIGHTEN YOUR LOAD!

Durability, ergonomics, maximum functionality and value are built right into every *telePendant*. The lightweight *telePendant* system will meet or exceed your expectations in radio control!

- Rugged and chemically resistant transmitter case withstands shock and abusive environments
- Traditional pendant-style pushbutton station switches; available in two- or three-speed designs
- Ergonomic, lightweight transmitter (50% lighter than its predecessor)
- *telePendant* is designed to minimize power consumption, providing one of the longest life batteries in the industry today
- Electronically synthesized frequency allows for 31 operating channels—no crystals to break
- Time Multiple Shared feature—four systems can share the same channel without interference
- 4-in-1 transmitter design supports multiple cranes via a password protected access code
- Transmitter backward compatible to most older receivers—preserving your 10K receiver investment
- Flexibility in programming means you can customize output configurations, frequency channels and security code via a PDA
- Universal transmitter design eliminates the cost and hassle of tracking and maintaining a fleet of spare transmitters
